England

M128 is a thickened version of MSH M127 Bleach Sanitiser sterilising and disinfecting agent

## FEATURES

**CLINGS** The thickener used in M128 enables the product to cling to the surface being cleaned giving a depth of cleaning.

**FAST** The strength of M128 enables quick and effective sanitising and disinfecting.

**CLEANS** Kills odours and leaves surfaces clean and germ free.

## DIRECTIONS

For general disinfection use 1 part in 80 water, for toilets urinals and drains add an undiluted shot of 100 ml

**Caution:** Do not mix with other chemicals as toxic chlorine gas can be liberated
