MSH Chemical Manufacturing Limited
Shaw Road
Dudley
DY2 8TP
England

A low foam dishwash liquid for use in automatic dishwashers.

FEATURES

CONCENTRATED for economy in use.

NON STREAKING Combination of caustic and surfactants cleans without effort.

APPLICATION

Suitable for use with most automatic washers for china, crockery and glassware.

DIRECTIONS

Use as directed by the equipment manufacturer and according to the degree of soiling normally encountered. Dilution will usually be between 1:250 and 1:500 as a proportion of the wash water.
