M136 offers a novel combination of high activity with the power of a more alkaline cleaner. The blend of differing surfactants included enable M136 to be an effective 'all-rounder'.

### FEATURES

**CONCENTRATED** To provide high levels of economy in use.

**NEUTRAL** M136 is only slightly alkaline and may be regarded as a neutral cleaner suitable for use on all water tolerant surfaces.

**FRESH** M136 incorporates a special additive to impart a fresh clean aroma after use.

### APPLICATION

Suitable for use in all cleaning situations requiring high detergency.

### DIRECTIONS

Use diluted according to the situation. Typically this will be up to 1:20 for general cleaning of floors, walls, tiles etc. Can be used on plastic, steel, aluminium surfaces without problems.
