England

A heavy duty degreaser with high levels of alkaline detergents designed to be suitable for cleaning in areas subject to a high degree of soiling.

### FEATURES

**POWERFUL** Combination of surfactants and alkaline detergents

**CONCENTRATED** To provide high levels of economy in use.

**DEGREASER** The added alkaline detergent enables it to quickly cut through soils containing high levels of grease and oil.

### APPLICATION

Used in the food processing industry for cleaning heavily soiled utensils, fryers and equipment. Areas where there may be high levels of public traffic or where process oils and fats may accumulate.

### DIRECTIONS

Floor cleaning: use mop and bucket dilute 15:1 with water. Deep fat fryers: use neat on crusty deposits. Fill with hot water and add 500ml. Bring to the boil and simmer for 30 mins. Empty and rinse with fresh water. Filter cleaning: brush on neat, cover with hot water and leave to soak. Afterwards rinse with fresh water.
