MSH Chemical Manufacturing Limited
Shaw Road
Dudley
DY2 8TP
England

One of the most powerful and effective heavy duty cleaning systems available. Incorporating a high level of free alkali within a surfactant/detergent blend.

FEATURES

DEGREASER The added alkaline detergent enables it to quickly cut through fats, oils and commercial greases.

TOLERANT Effective in hard water areas.

WATER BASED Contains no solvents, safer to handle.

APPLICATION

Suitable for use in many areas of the food processing industry.

DIRECTIONS

For normal use by hand using cleaning cloth mop or squeegee, dilute with up to 15 parts water.
