M161 is concentrated, high foaming detergent with wax for effective cleaning of traffic film, grime and bugs, leaving a glossy water repellent shine.

Suitable for manual washing of all types of vehicle.

FEATURES

HIGH FOAMING produces a rich foam to lift even the toughest dirt and grime

FREE RINSING water repellent additive beads excess water to reduce drying time

ALKALI FREE pH neutral and containing mild detergents that will not harm vehicle bodywork

DIRECTIONS

Suitable for manual cleaning or use through pressure washers.

For manual cleaning, add 100mls to 5L of water. Apply using a sponge or soft brush. Rinse with clean water.
