Tyre Shine enhances the look of a freshly valeted car by restoring the colour and shine of the tyres.

FEATURES

FINISHING TOUCH completes the overall look of the car

SILICON FREE water based formulation for black satin finish

PROTECTS provides a barrier to protect against wear and cover up discolouration.

DIRECTIONS

1. Ensure tyre surface is clean.
2. Using a brush, apply an even coat of Tyre Shine to the outside of the tyre.
3. Wipe any excess off the wheel.
4. Leave to dry
