A tough hand cleaner containing highly refined hydrocarbon solvent and small plastic beads to give powerful cleaning capability, whilst still retaining consideration for the hands.

Ideal for workshops and industrial workplaces.

FEATURES

BEADS Contains polypropylene beads to give an effective yet non abrasive cleaning action.

SOLVENT a refined hydrocarbon solvent tackles many resins and paints.

EASILY RINSED Requires just a quick rinse under the tap to leave the hands clean and fresh.

DIRECTIONS

Apply to dry hands and rub gently to emulsify any oils and grease contamination on the skin. Rinse off under the tap.
