An attractive liquid hand soap ideal for use in dispensers. Mild in detergent content M172 may be used as a shower soap in shower and bathing areas for after work cleaning.

FEATURES

LANOLIN Contains lanolin derivatives and coconut oil soaps together with non-ionic surfactants for effective cleaning ability whilst not drying the skin.

SOLVENT FREE Contains no natural or synthetic solvents.

ECONOMICAL Requires the use of remarkably little soap to achieve excellent results.

DIRECTIONS

Apply to either dry or wet hands and rub gently to emulsify any oils and grease contamination on the skin. Rinse off under the tap.
