M175R is a low foaming multi-purpose cleaner concentrate, suitable for general cleaning in a wide range of industrial, commercial and institutional situations.

FEATURES

ACTIVE M175R features a powerful combination of solvent, surfaces active agents and detergents to give maximum cleansing performance whilst creating little foam.

CUTS Through greases, grime and soil to give a thoroughly clean surface with economy in use.

RESEARCH & DEVELOPMENT Utilises the latest materials to minimise hazards in use and ecologically risks whilst maintaining effectiveness.

DIRECTIONS

For normal use by hand using cleaning cloth, mop or squeegee, M175R may be diluted with up to 20 parts of water. In combination with pressure washing equipment or other mechanical application methods, a dilution of up to 1 part in 100 can be used.
